JOINT OPERATIONS

Overview

- Desired Outcome – Proposed Action
- Key Enablers
- Overlapping Partnerships
- Specific Responsibilities
- Proof of Concept
- Way Ahead
- Probability of Success – Known Risks

JOINT OPERATIONS

Desired Outcome – Proposed Action

- **Desired Outcome: While conducting combined military operations and activities,**
  - **Reduce loss of life**
  - **Improve performance**
  - **Increase resource efficiencies**

- **Proposed Action: Capture, share and exploit combined military best practices and lessons for timely use in…**
  - **Operations**
  - **Training**
  - **Exercises**
  - **Experimentation**

JOINT OPERATIONS

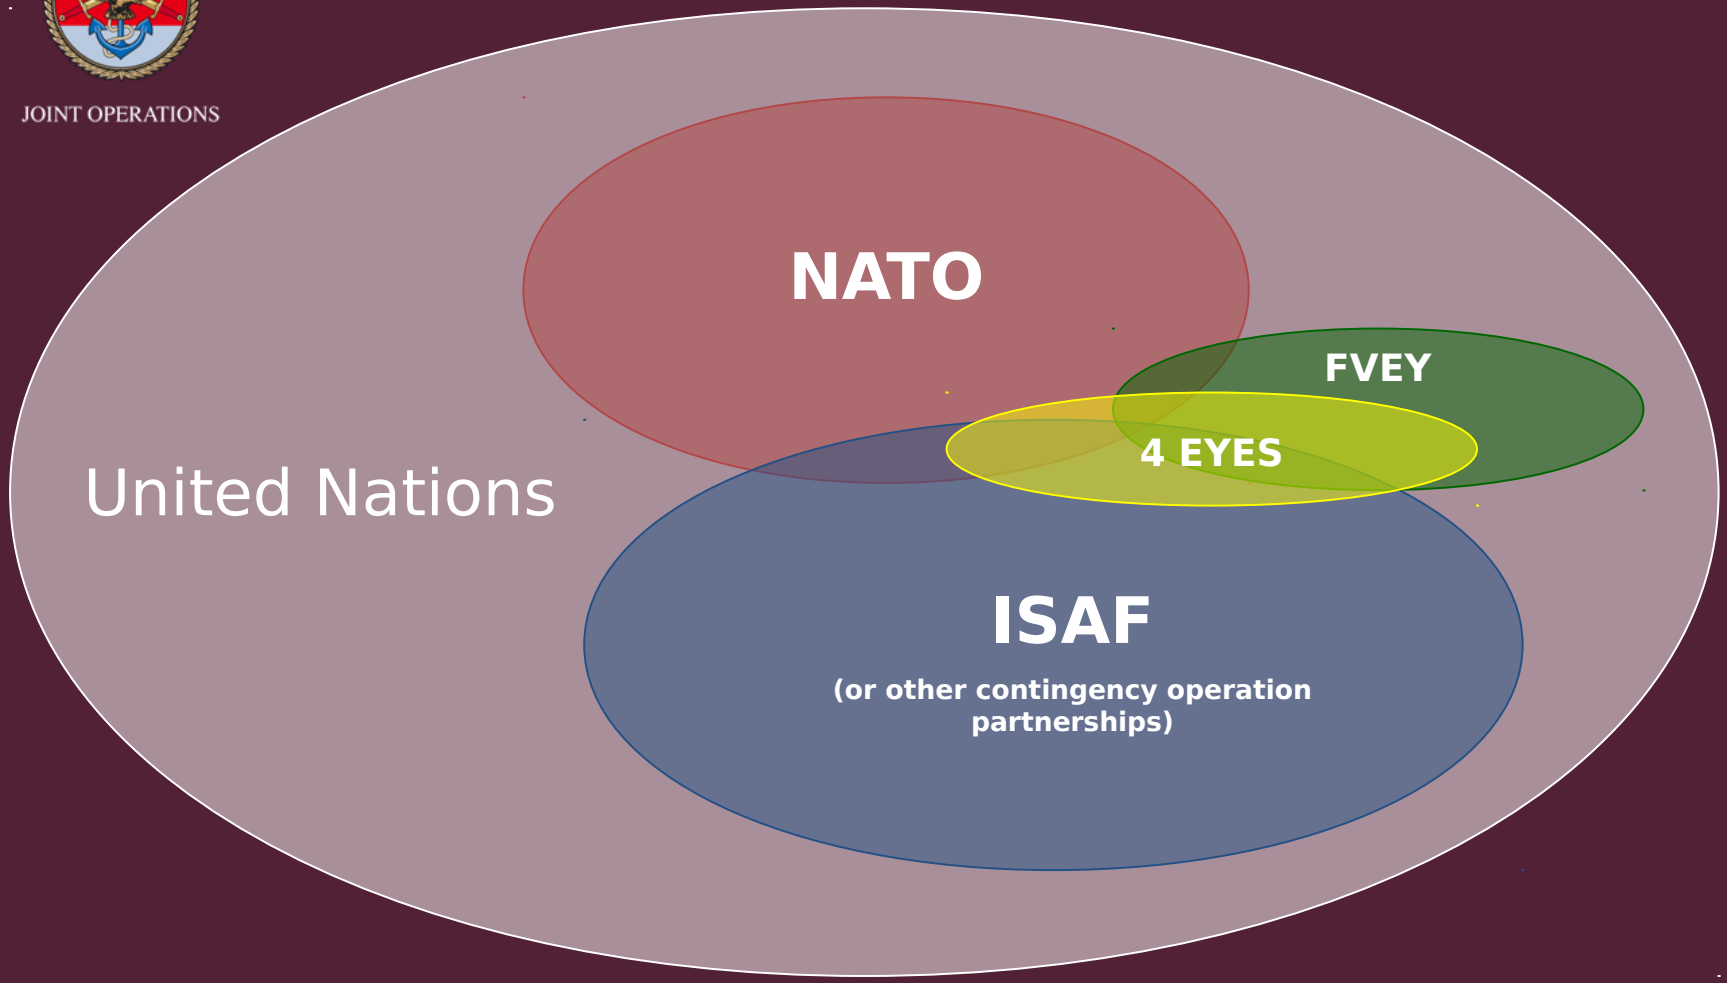
Key Enablers

Information becomes useful knowledge when it is

- **Shared among team mates**
- **Managed in an accessible environment**
- **Applied to operational needs**

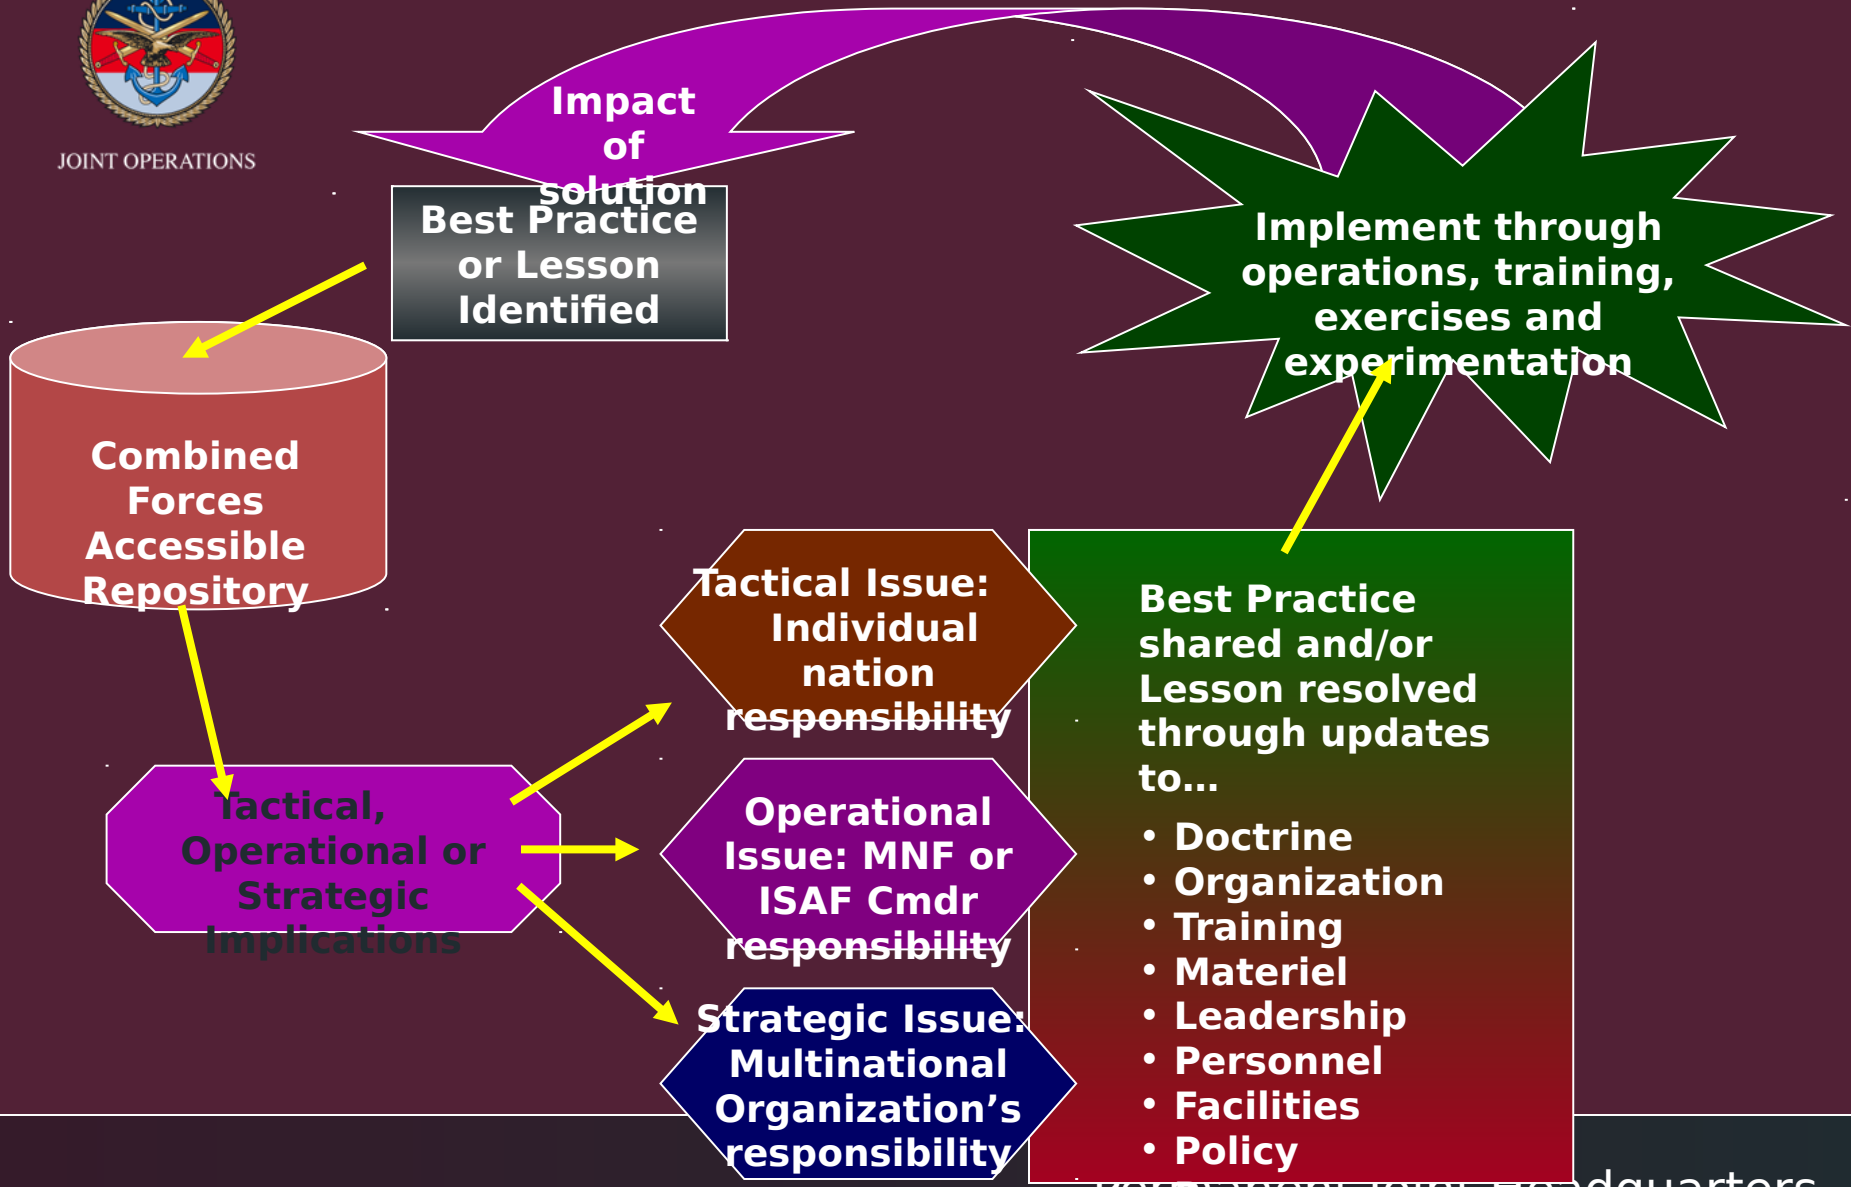
JOINT OPERATIONS

Overlapping Partnerships



Specific Responsibilities

JOINT OPERATIONS



JOINT OPERATIONS

Proof of Concept

- Based on existing 4 EYES HUMINT Memorandum
- Establish on SECRET REL network
- HUMINT/CI focus
- Hosted at UK PJHQ
- Requires policy and systems approval/coordination
- Has buy-in from US Joint Staff J-7
- Ties into recent talks between UK HQ Air Command and US Special Operations Command

JOINT OPERATIONS

Way Ahead

- Back briefs to senior leadership (Mar 10)
- Functional requirements virtual meetings (Apr-May 10)
- On-site JLLIS demonstration (May 10 TBC)
- Draft implementation plan to include policy and technical issues (May 10 TBC)
- Partners review implementation plan with respective stakeholders (Jun 10)
- Establish timeline for installation (Jun 10)

Probability of Success – Known Risks

JOINT OPERATIONS

- **Probability of Success: 85%**
- **Known Risks**
  - **Low risk: Buy-in from senior leadership**
  - **Medium risk: Required policy changes/approval**
  - **Low risk: Technical issues**
  - **Low risk: Funding. This includes search software and travel funding: a US cost of ~ $500k**
  - **Low risk: Site hosting. This includes providing hardware, network support and approval to operate on SECRET REL network: a UK responsibility**
